the nini

the nini

In Bali, the word nini holds a quiet beauty. It can mean a beloved grandmother. A figure of warmth, wisdom and care.

It can also mean nini padi, the sacred rice cherished from planting to harvest. Honoured through rituals and ceremonies that connect people, nature and tradition.

The Nini at Bambootel Sawah View celebrates both meanings.
It is a place where heritage meets the present. Where the gentle spirit of the rice fields surrounds you. Where every breakfast, lunch, dinner and moment of lounging is filled with the same love, respect and connection that nini represents.

Here, you do not just taste. You experience a story of culture, nature and the people who keep them alive.
